

Construction & Engineering

Overview

Our dedicated team have extensive local and international experience of all aspects of construction and engineering projects. We understand the complexities of the sector and can provide specialist advice to a broad range of clients in relation to contentious and non-contentious work.

Our team has a proven track record in managing disputes and we take a proactive approach to support our clients.

We have successfully represented clients in all forums of dispute resolution, advising on complex legal issues and have successfully represented employers, contractors, banks, sub-contractors, local authorities and construction professionals.

Having acted for the entire range of sector stakeholders, we can provide comprehensive commercial and solution-driven advice from project inception through to completion. We pay particular attention to risk analysis and the early identification of issues that are relevant to our clients.

*Dublin, London
& New York*

Our Services

We are currently acting on some of the biggest construction projects in Ireland including the development of the largest wind farms in Ireland for SSE, the major upgrade of a global IT manufacturing facility in Leixlip, a new customer care facility in Kildare for Kerry Group, the Dublin waste-to-energy project, the Ringsend Water Treatment facility and a large number of developments of new and existing healthcare and education facilities around Ireland.

We have vast experience in dealing with complex issues arising on construction projects and can provide practical advice to clients which reduces exposure to risk and ensures projects are managed in the best possible manner.

Our experience includes advising on such issues as:

- Project Procurement
- Contract Advice
- Drafting & Negotiation
- Contract Management
- Dispute Avoidance
- Dispute Resolution
