

Fintech

We are at the forefront of fintech advisory and transactional work, providing cutting-edge advice on the challenges and opportunities in this evolving area. Our highly skilled team brings together financial regulation, data privacy and IT legal experts, offering global expertise coupled with detailed industry insight.

We regularly assist fintech clients to navigate the interplay between technology, data and financial services regulation. Our clients trust us to solve their complex fintech problems, including in relation to new technologies like blockchain, distributed ledgers, big data analytics, insurtech, smart contracts, and artificial intelligence (AI).

Our diverse roster of clients ranges from some of the world's best-known financial institutions and data-driven organisations to fast-scaling disruptive fintech businesses and investors.
