

# Dispute Resolution

The rigorous evaluation of risk and the effective presentation of our client's position are key skills of our dispute resolution team. Business objectives are at the core of our thinking, so that commercial or reputational ramifications are always considered.

We are routinely involved in high value commercial court litigation, so we are attuned to judicial trends. Versatility means that we consider different approaches and devise the best tactics from mediation to running the case.

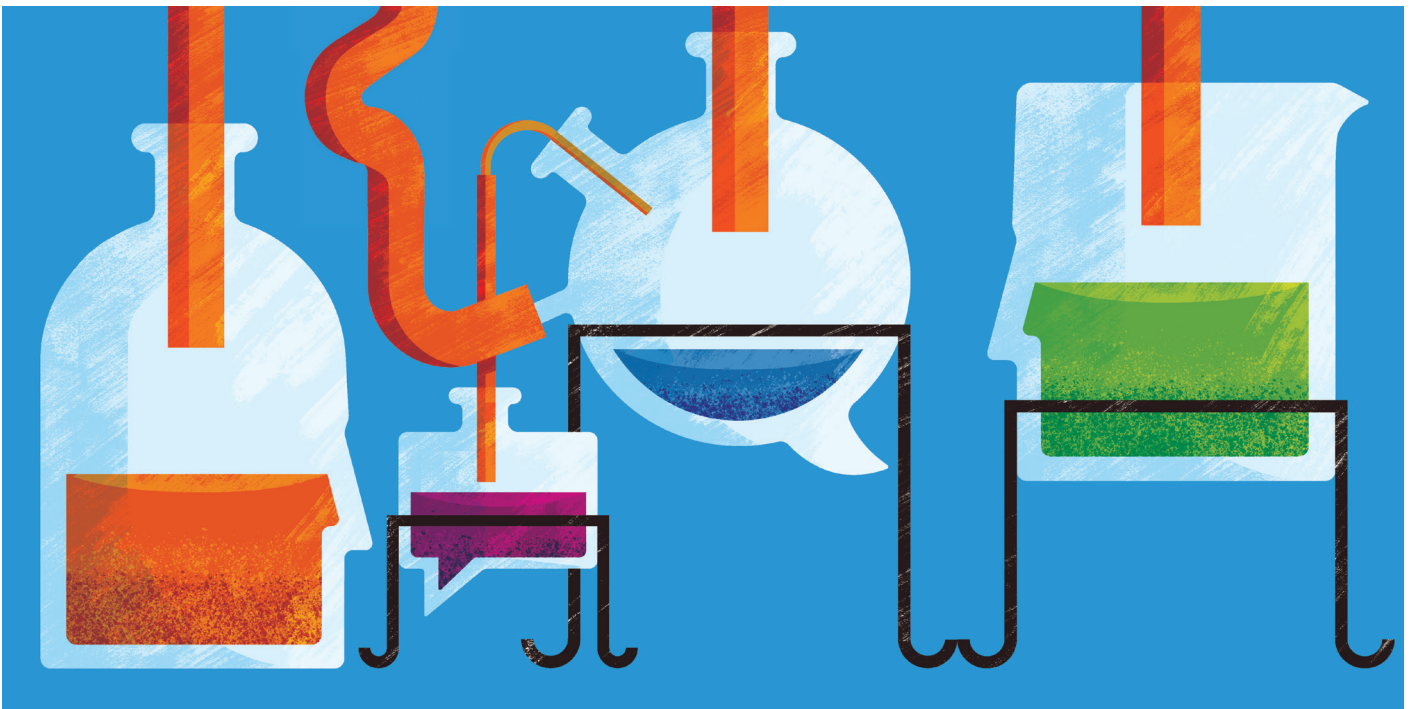

We are regularly retained by domestic and international companies in the financial services, insurance, construction and real estate sectors.

Our specialist groups focusing on insolvency, intellectual property, competition law, public administrative law and child care law are leaders in their fields.

## Our Expertise

Our team acts across a range of areas including:
