of its Irish wind farms

We acted for
Nord LB
in financing the
34.15MW Carrowleagh
Wind Farm

About Us

Our Energy team has been recognised by Infrastructure Journal as one of the top 10 European legal advisors for renewable energy finance projects based on past deals. This reflects our position as a market leader in the Irish renewable energy sector.

We have advised on wind energy projects since 1993 and have acted on financing projects with generation capacity in excess of 800MW and a combined funding/development value of approximately €1 billion. This, combined with our recent corporate transactions acting for purchasers and sellers of wind farms with a total capacity in excess of 1000MW, marks our Energy team as a leading provider of renewable energy-related legal services.

Contact us

Wind energy projects are complex by their nature and benefit from early liaison and interaction between the various disciplines involved. To discuss any aspect of the services we can offer, please contact one of our team.

What others say about us...

Our Energy team

"well-regarded energy outfit with significant experience in renewable energy."

Chambers & Partners Europe, 2015
